

SUMMARY

- Results-driven **Digital / Web & Product Analyst** with **5+ years** delivering measurable revenue impact across retail, fintech, AI and Product based companies.
- At Sainsbury's, drove **£20M+** revenue impact through full-funnel analysis across **5M+** monthly sessions using **Adobe analytics, CIA, GA4, and Snowflake**.
- Expert in end-to-end tracking (**GTM, Tealium**), **CRO, MMM, A/B** experimentation, and executive-ready dashboards (**Tableau, Power BI, Looker**).
- Proven ability to partner with product, engineering, and marketing teams to convert behavioural signals into growth strategies that cut cost, increase conversion, and scale ROI.

WORK HISTORY

Digital Analyst | Sainsburys UK

Oct. 2023 to Current

- Analysed user journeys and conversion funnels across **5M+** monthly sessions (**GA4, Adobe CIA, Tealium**) also identified checkout friction points that lifted conversion rate by **10%**, and led **CRO & SEO** funnel optimisation across keyword trends, **on-page behaviour**, and checkout flows together contributing to **£20M+** revenue impact.
- Developed **multi-touch** attribution **models** and conducted Marketing Mix Modelling (**MMM**) across SEO, paid search, social, display, and organic channels also evaluated diminishing returns and recommended budget reallocation that improved marketing **ROI** by **12%** and reduced inefficient ad spend.
- Built **45+** automated KPI **dashboards** in **Snowflake** and Report Builder, cutting ad-hoc reporting turnaround by **60%** also designed and governed a tracking plan, validating **500+ GTM** and **Tealium** tags with less than **1%** discrepancy to unify marketing and product data.
- Drove a **15%** campaign performance uplift and **9%** increase in returning visitors by evaluating traffic-source mix and audience segmentation also led **failure-state cohort** analysis using **Adobe Analytics & SQL**, identified UX friction and gaps that reduced funnel abandonment and improved overall conversion by a further **11%**.

Digital Analyst | University of west of England Bristol

Aug. 2023 to Oct. 2023

- Deployed **Google analytics & GTM** tracking across multiple **web & App** properties and ran **A/B** and **multivariate** experiments via Google Optimize with data-driven UX changes drove a **15%** increase in campaign conversions and a **7%** lift in landing-page conversion rate within 8 weeks.
- Built multi-touch **attribution models** utilising **SQL & Tableau** and built **BigQuery** views to automate campaign extraction cutting report prep by 40% and enabling re-prioritisation of high-impact acquisition channels that improved campaign efficiency by **14%**.
- Audited **500+ organic** keywords to identify technical **SEO** and content gaps, increasing organic traffic by **9%** with zero incremental spend also built **real-time** dashboards in Looker Studio for Google Ads, YouTube, Meta, and Twitter Ads, enabling automated daily **ROAS** and **CTR** monitoring.

Marketing Data Analyst | Icon Hotels

Sept.2022 to July 2023

- Implemented cross-domain **GTM** tracking and optimised **GA4** user journeys across web & mobile also combined with end-to-end conversion funnel analysis and **A/B experimentation** insights that drove a **7%** increase in **conversions**, 14% reduction in **drop-offs**, and 10–15% uplift in **acquisition** performance.
- Built **Tableau & Looker** dashboards tracking user behaviour and affiliate content impact; organic page views grew **8%** and qualified leads increased **13%** insights directly informed content strategy and SEO landing-page prioritisation.
- Conducted **multi-channel** campaign analysis using **GA4** and **HubSpot**, presented ROI findings to senior stakeholders and recommended budget reallocation saving **\$350K** in wasteful paid spend, with Non-Brand SEO pages integrated into the funnel via **JIRA**-managed tracking deployment.

Digital Data Analyst | BYJUS

Jan. 2020 to Feb. 2021

- Drove a **7%** uplift in campaign performance through **A/B testing** on product prototypes in collaboration with **UX** designers and **developers** also created targeted multiple audience segments that boosted user engagement by **15%**.
- Implemented **GA** Analytics, Floodlight Counter, and custom GTM tags using **CSS/HTML** also enabled granular **behavioural tracking** across the acquisition and activation funnel.
- Developed advanced **SQL** queries to analyse funnel drop-offs and built **Tableau** dashboards to visualize insights, reducing drop-off rates by 11% and improving registration recovery.
- Built **ETL pipelines** from Google Search Ads and Apple Search Ads into **BigQuery** via **Fivetran** also unified mobile acquisition data and enabled cross-channel attribution, contributing to an 18% revenue increase from optimised campaign targeting.
- Partnered with business stakeholders to set and **optimise marketing budgets**, define tracking requirements, and **debug** tag implementations across web and mobile maintaining more than 99% tracking accuracy across all key funnels.

Data analyst Intern | BOSCH

June 2018 to Aug. 2018

- Built a Google Data Studio dashboard tracking **1,000+** leads, CTR, conversion rates, and social KPIs also conducted multi-channel analysis in Google Analytics and HubSpot to uncover insights that improved campaign ROI by 12%.
- Optimised paid keywords using Ubersuggest and Moz, increasing CTR by 15% also launched affiliate and referral programs that grew high-quality leads by 10% and strengthened domain authority through strategic backlink acquisition.
